06	Homeowners: 10-second review	Mobile view
07	What you must know	Rules, pricing, FAQ

> **For business owners and managers**: this guide covers everything you need — how to read the report, how to activate, where to place the QR, how customers scan. All screens show a public example business; the flow is identical when you check your own business.

01 Why your business needs Neoxra Map

1 Homeowners check Google before they choose a business

Star rating, review content, photos — these decide whether a homeowner reaches out. Most businesses know this matters but can't tell what's missing or what to fix first.

2 Low rankings usually mean reviews don't mention what you sell

Mr. Handyman of SW Minneapolis has 235 reviews, yet "Drywall Repair" is mentioned 0 times. Not because the work isn't good — because homeowners didn't think to write it. Google connects what reviewers write to search terms. If your key services aren't mentioned, you miss those searches.

3 Scored output — see exactly what to fix

The report hands you a 0–100 Profile Completeness score, a list of gaps, and the order to fix them. No guesswork.

4 AI drafts your Google Posts and review replies

Based on your services, business info, and category keywords, Neoxra Map drafts Google Posts and review replies — copy and paste, done.

5 Homeowners won't type long reviews — but they will tap

Homeowners tap what they had and what they liked. The system turns those taps into a draft review; they can edit it, then post it from their own Google account.

6 1 content-rich 5-star beats 100 blank 5-stars

"The tech fixed our Drywall Repair in one visit and left the place cleaner than he found it" is keyword-dense, and Google ties it to "handyman near me" searches. 100 empty 5-star reviews add almost nothing in the algorithm's eyes.

7 No fake accounts, no bought reviews

Every review comes from a real homeowner posting from their own Google account — avoiding review removals and profile penalties.

8 No gifts for reviews

No discounts, no free add-ons in exchange for reviews. Fully compliant with Google's review policy and the FTC's 2024 rule on consumer reviews.

9 Results you can measure

Scan counts, monthly review totals, Rank Radar top-3 changes — real numbers every month. You can also see which technician's QR card drives the most scans.

10 Backed by the Google startup accelerator

Neoxra participates in Google Project Hatcher × SparkLabs Taiwan. During product design, we consulted the Google Maps team directly.

Neoxra Map is an independent product by Neoxra. It is not an official Google product.

02 What Neoxra Map does

Neoxra Map helps your business manage its Google Business Profile: one report shows the gaps and how to fix them. A QR then makes it easy for homeowners to leave real reviews. **US$29/month per location, cancel anytime.**

Feature	What your business gets
Analysis Report	Profile completeness score, gaps, improvement suggestions, keyword strategy
Rank Radar	Searches "handyman near me" and your service keywords from multiple grid points around you
Review Health	Last 90 days: review count, rating trends, reply rate
Content Generation	Unlimited Google Post drafts; review reply drafts — copy and paste
QR, Staff QR	Homeowners scan, tap what they had, get a draft review; see which technician's QR drives the most scans
Monthly Performance	Google review total, Rank Radar top-3 changes month over month

The report shows a snapshot at scan time. Neoxra Map does not guarantee rankings.

Owner Read report → Activate → Set up QR

↓

Homeowner Scan QR → Tap what they had → Get draft → Post on Google

10/24 UI update: The old "activation review" step is gone — the owner clicks "This is my store" and goes straight to payment, no 1-business-day wait. The review page is also consolidated into a single page (experience selection + draft on one page).

03 Read your business's free health report

The free plan includes 3 analyses per month. See your current score and gaps first, then decide whether to activate paid features.

> This example is a Minneapolis, MN business with 4.6★ and 235 reviews. Profile Completeness **45/100**, keyword coverage **0/5**: reviews never mention Drywall Repair, Door Installation or Painting. When someone searches "handyman near me," Google has no reason to show this business.

1 Sign up, paste your business's Google Maps link

Go to **map.neoxra.com** and sign up with Google. Find your business on Google Maps, click Share → Copy link, paste it into the Analysis Workbench. Fill in 3–5 signature services (e.g., Drywall Repair, Door Installation, Painting, Deck Repair, Fixture Installation) and click Start Analysis. The report is ready in 1–2 minutes.

2 Report overview: see the score at a glance

At the top of the report: **Profile Completeness** score (0–100) and **Growth Potential** level. Left: basic store info (stars, review count, photos, owner reply rate). Right: diagnosis.

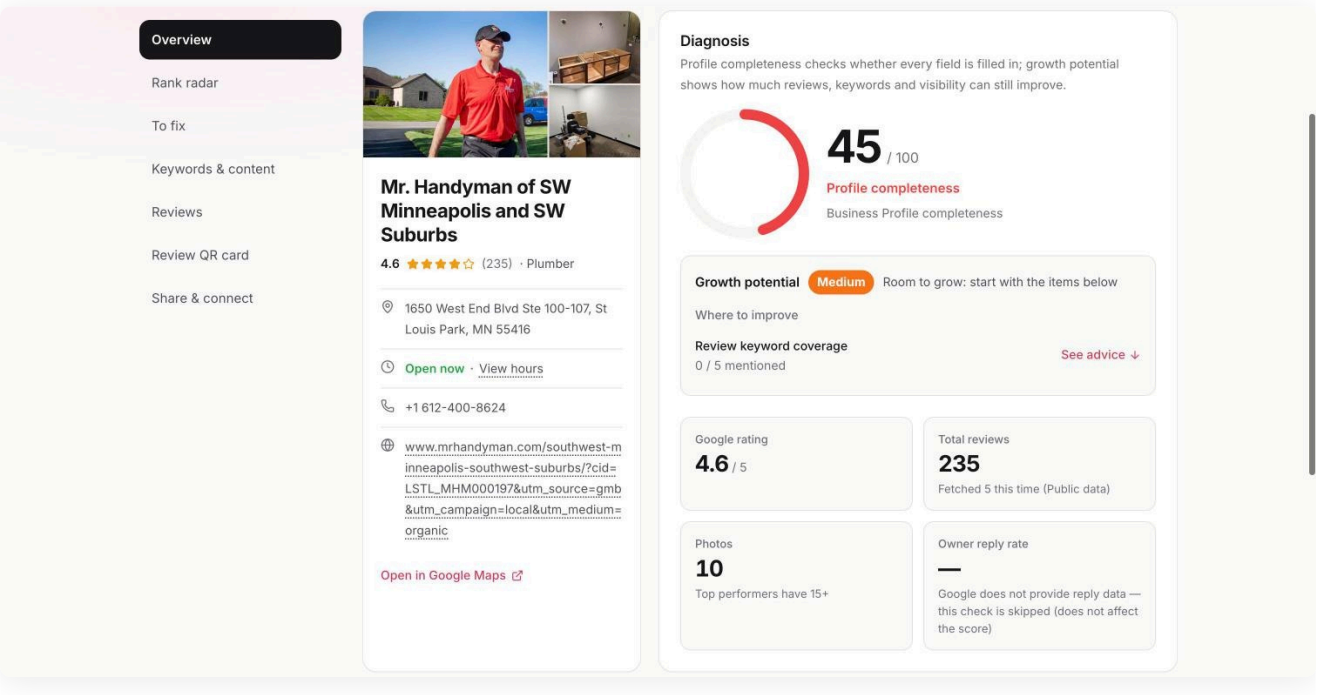

Fig. 1 Mr. Handyman of SW Minneapolis report overview: Profile Completeness 45/100, Review Keyword Coverage 0/5.

3 Items to fix: sorted by impact

The report sorts items by impact. Top: **Start with these three**. Then categories: Basic Info, Content Richness, Service Options, Review Management — each with current score and total.

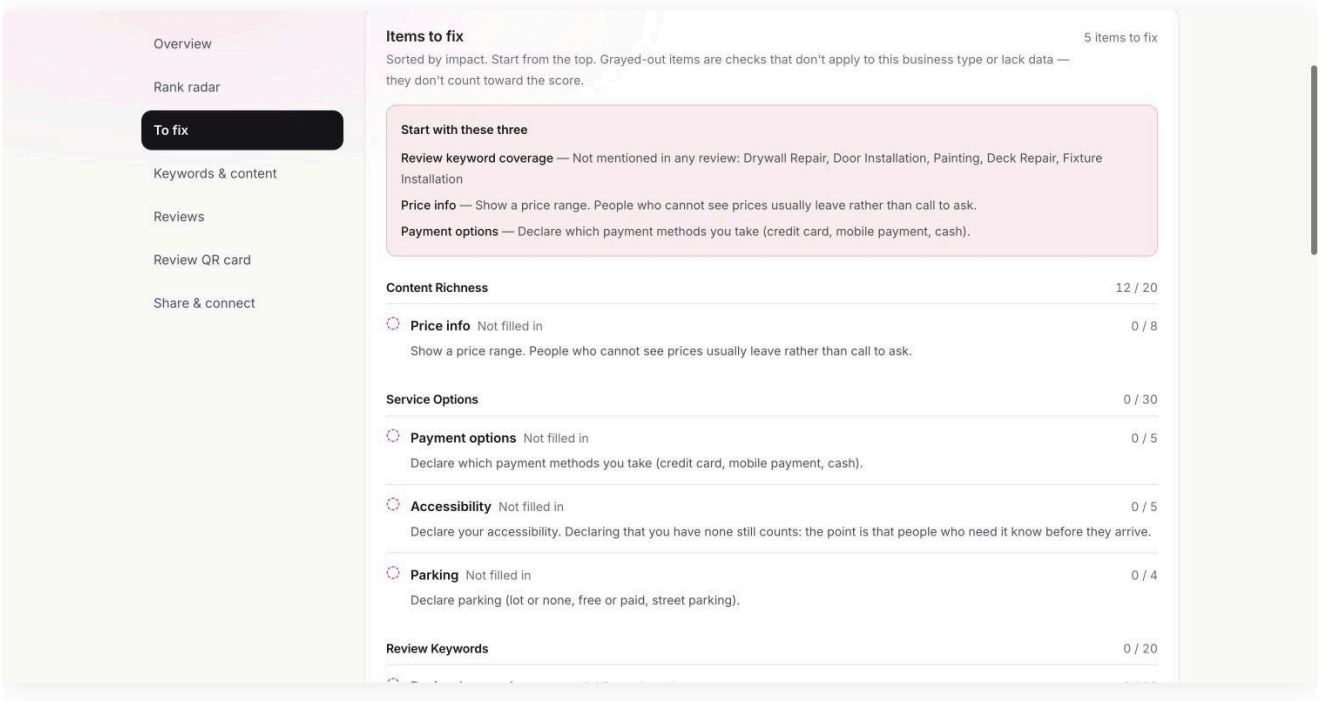

Fig. 2 Items to fix sorted by impact; "Start with these three" is top priority.

4 Keyword gap: do reviews actually mention your signature items?

Review Keyword Coverage matches customer-written reviews against your signature items (not your website copy). If your signature services aren't mentioned in reviews, Google won't match you to those searches.

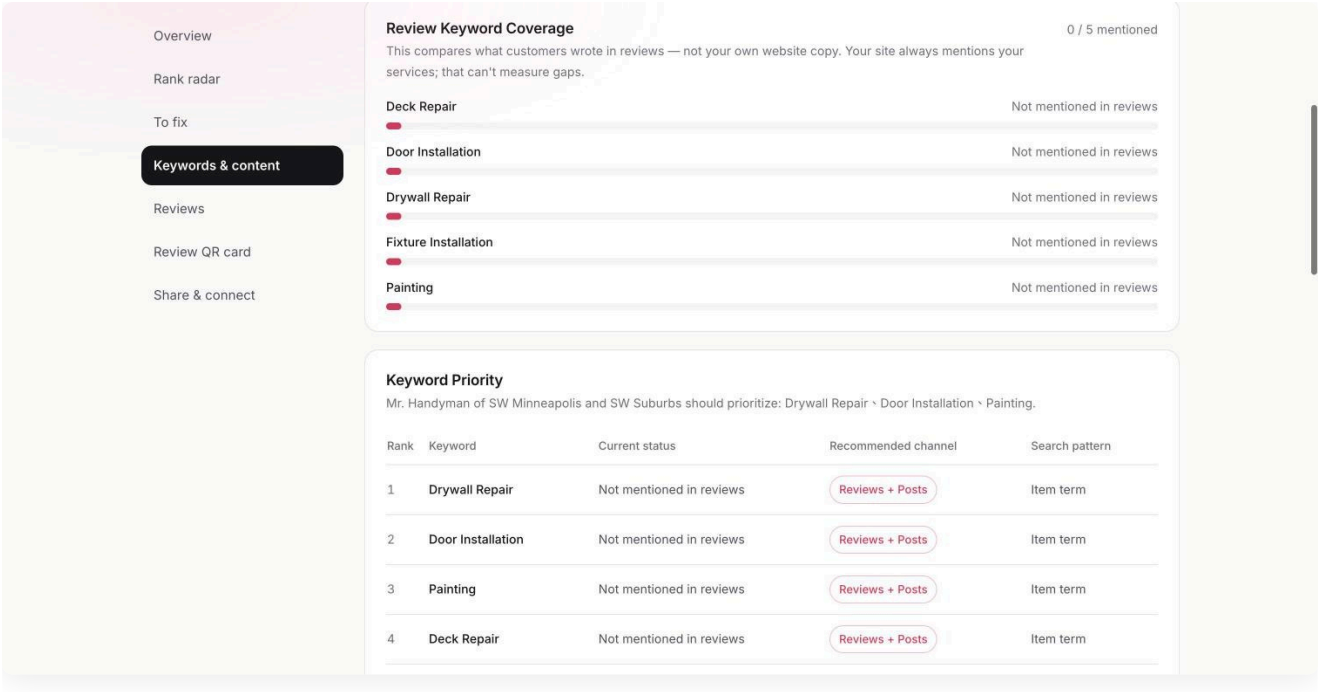

Fig. 3 Review keyword coverage (5 signature items vs what reviews actually mention) + keyword priority.

5 Content Plan: what to post, what reviews should mention

Based on the keyword gaps above, split into "**What to post**" and "**What reviews should mention**" — two lists. After activation, draft generation is one click.

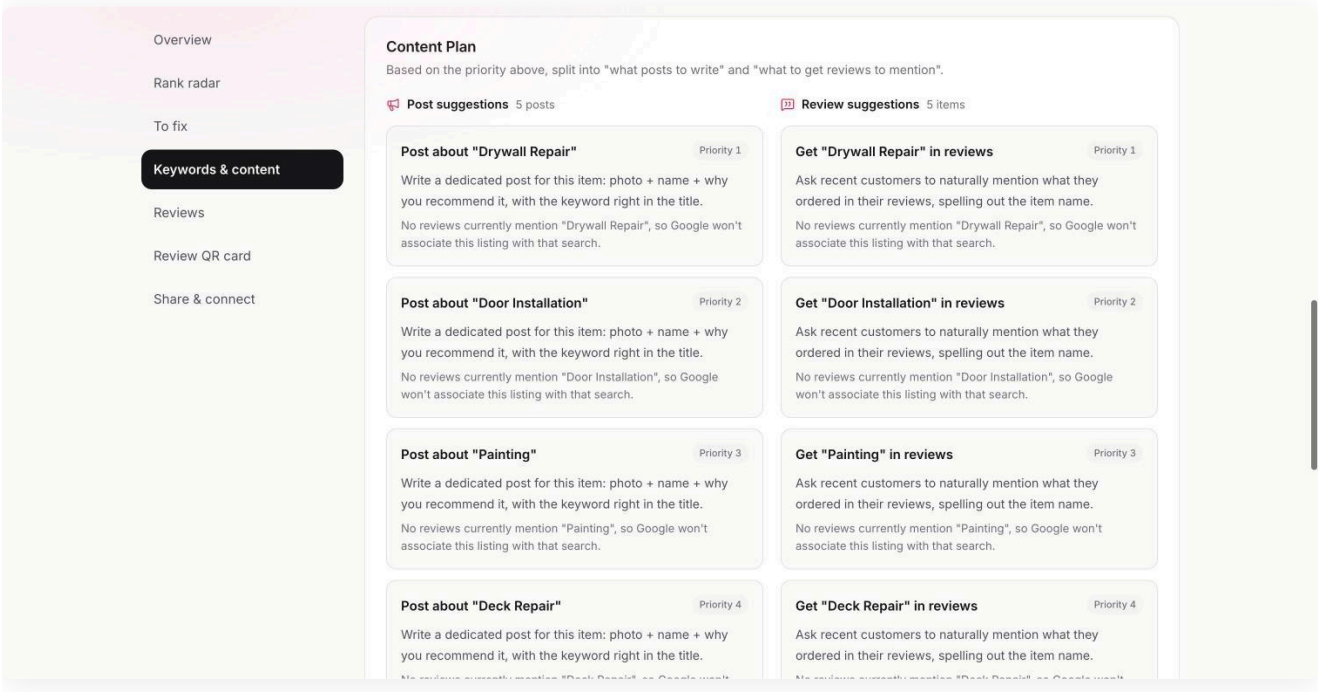

Fig. 4 Content Plan: post ideas and review ideas aligned with keyword gaps.

6 Monthly Performance + technician QR

Monthly Performance table tracks: scans, unique visitors, review copies, Google Maps visits, Google review totals, Rank Radar top-3. Technician QR shows which staff member drives the most scans.

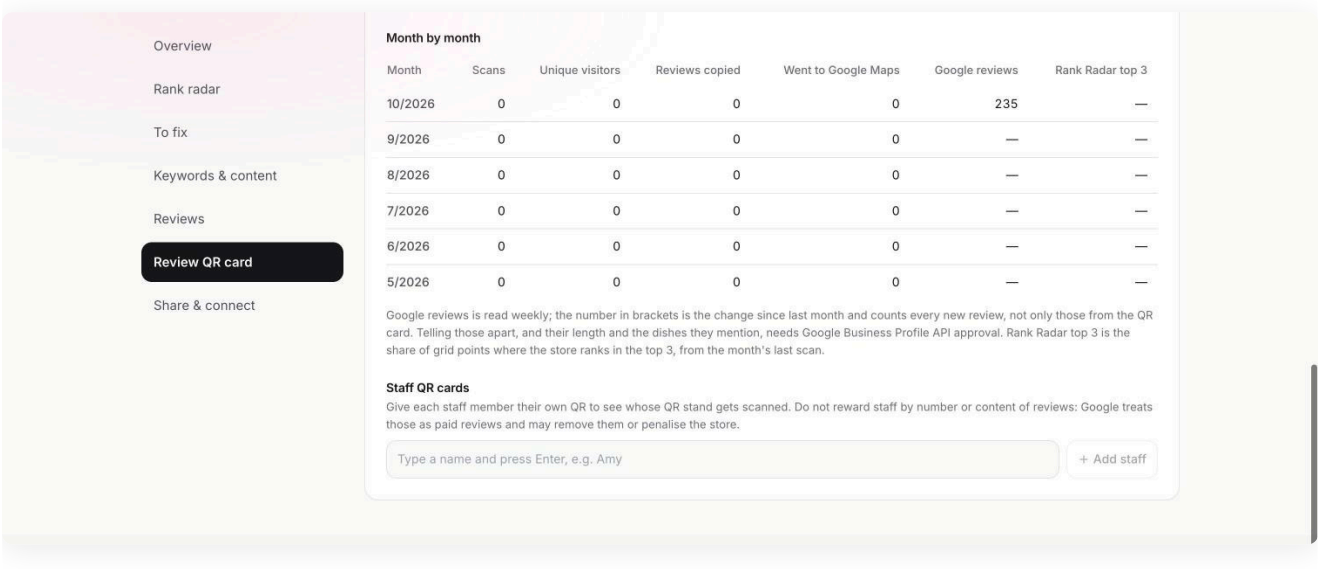

Fig. 5 Monthly Performance table + technician QR (up to 30 members).

04 Activate and print the QR

Activation: **4 steps** — Claim store → Pay → Set up services → Print the QR. Takes about 5 minutes.

1 Claim your store

Open your business's analysis report. The top will show: **Is this your store? [This is my store, start using US$29/month]**. Click it to add this business to your My Stores list.

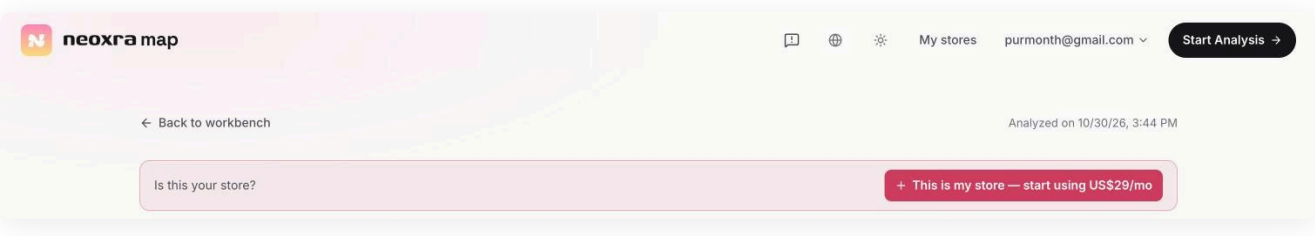

Fig. 6 The "This is my store" button at the top of the report (store-owner view).

2 Store detail page: Start using US$29/month

After claiming, you land on the business detail page with status **"Not activated"** (the figure below shows the same page after activation). Click **Start using US$29/month** and pay by credit card (handled by Stripe — Neoxra never sees your card number). After payment, improvement suggestions, keyword strategy, Rank Radar, and post generation all unlock.

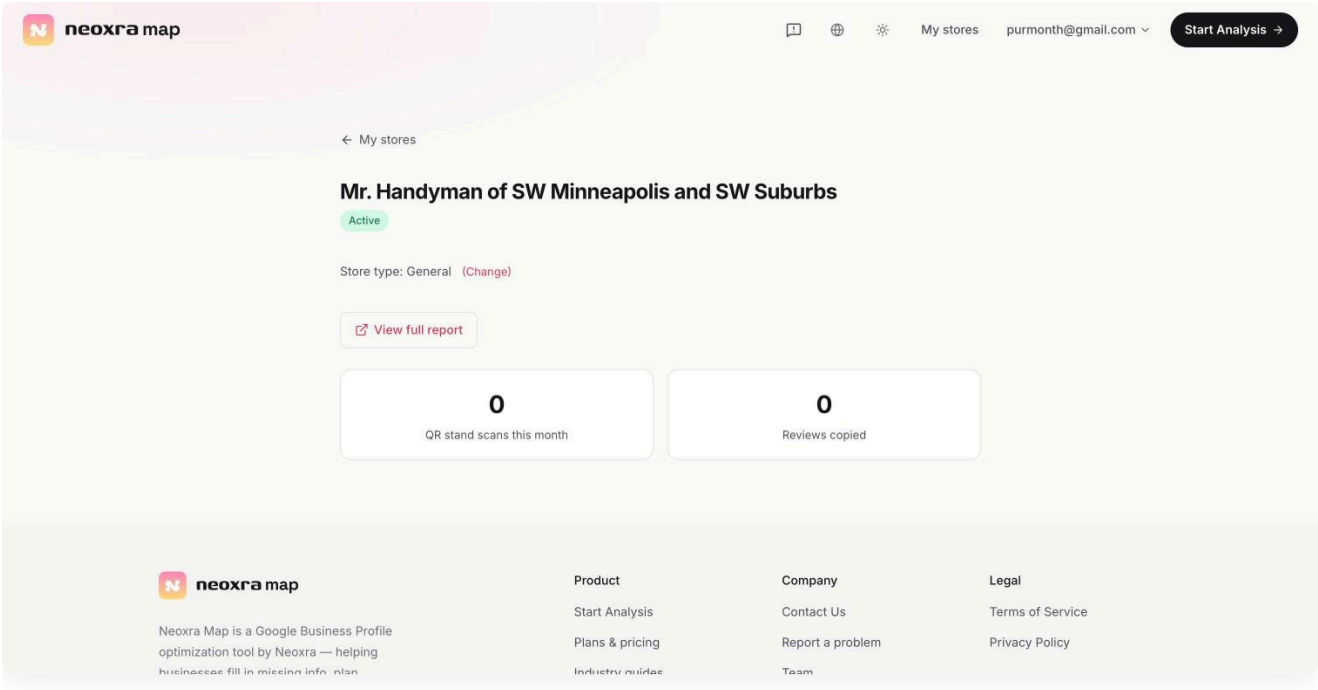

Fig. 7 Store detail page after activation: status "Active", store type, View full report, and this month's scans and review copies.

> **Multiple locations?** Go to Plans & Billing → Location Manager → Add Store, or claim from the new business's report. Second and later locations: prorated for the remaining days this period, then all billed on the same day thereafter.

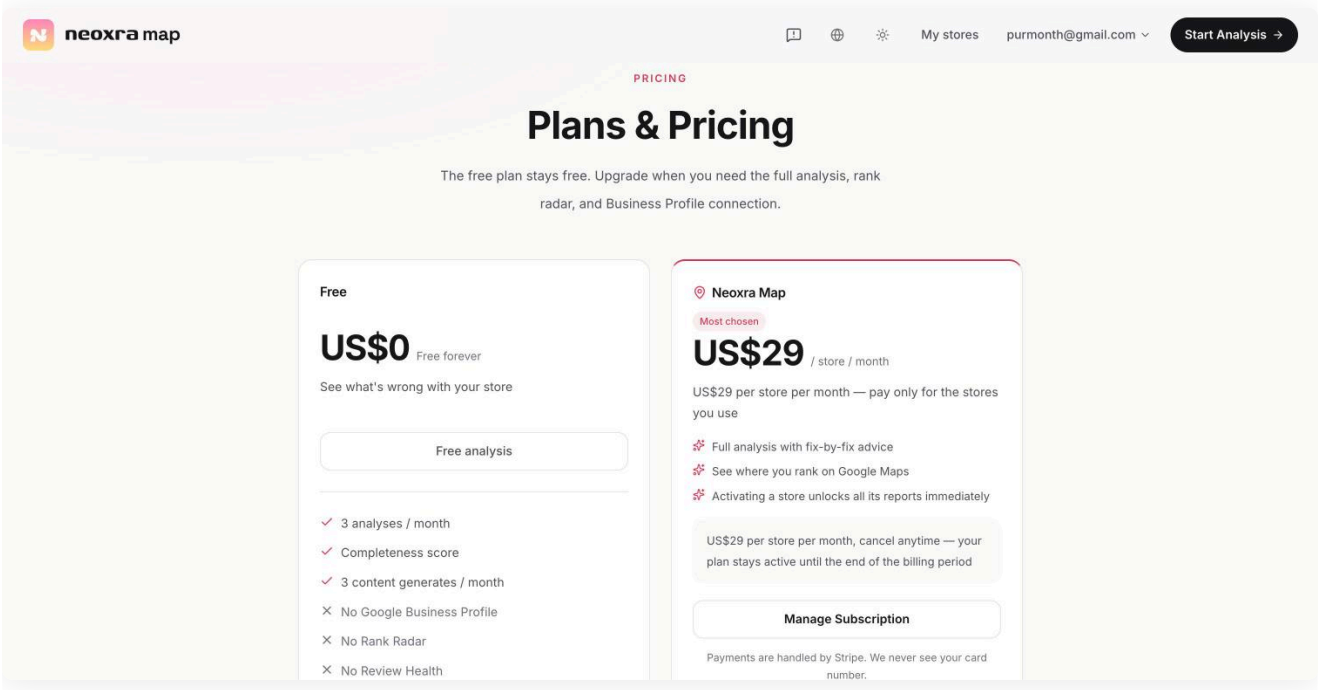

Fig. 8 Pricing: Free (3 analyses/month) and US$29/month per store (full features).

3 Set up store info and service items

1. **Upload logo**: Customers see your logo first after scanning.
2. **Fill services**: Service names (e.g., Drywall Repair, Door Installation, Painting, Deck Repair, Fixture Installation), up to 12. **Do not** fill keywords or things you want customers to write — Google forbids steering review content.

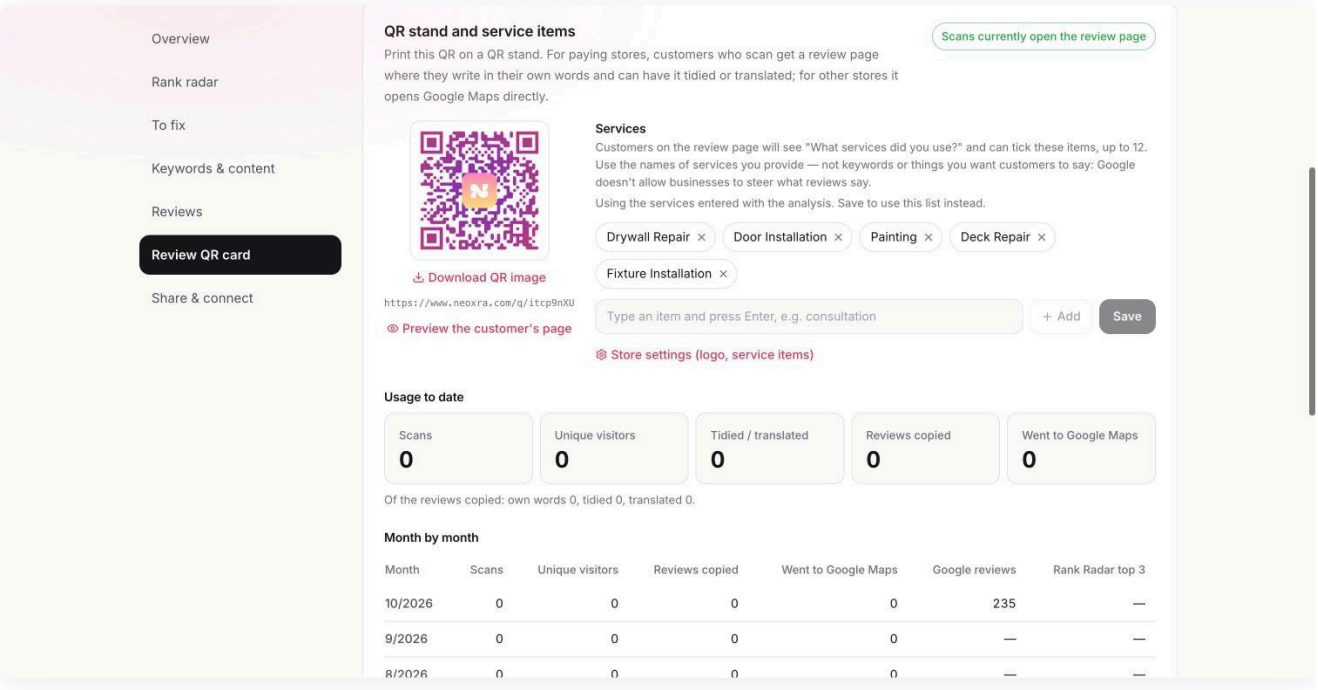

Fig. 9 QR download + services (filled: Drywall Repair, Door Installation, Painting, Deck Repair, Fixture Installation).

4 Print the QR + add technician-specific QR

1. **Download QR image**: Click Download QR image, print on invoices, work orders, technician business cards, a sticker on the service van.
2. **Add technician-specific QR**: Create one per technician (up to 30). See who drives the most scans — but **don't** reward staff by review count (Google treats that as paid reviews).

After activation: daily tasks for the owner

What you want to do	Where
See what to improve, re-analyze to compare before/after	That store's report
See local rankings and competitors	Rank Radar (auto-scan weekly)

What you want to do	Where
Generate Google Post drafts, unlimited	Content generation
Draft replies to reviews, copy and paste into Google	Reviews
See scan counts, each technician's performance, monthly review total	Review QR card

Deactivation, billing

- **Pause a store**: On that store's report page, click Pause. Service continues until the end of the current period, then no charges; click Resume before expiry to continue.
- **Data retained 90 days**: Reactivate within 90 days and historical reports and rank data are preserved.
- **Change card, download receipts**: Billing page.
- **Payment failure**: 7-day grace period, features continue; service restored immediately after card update.

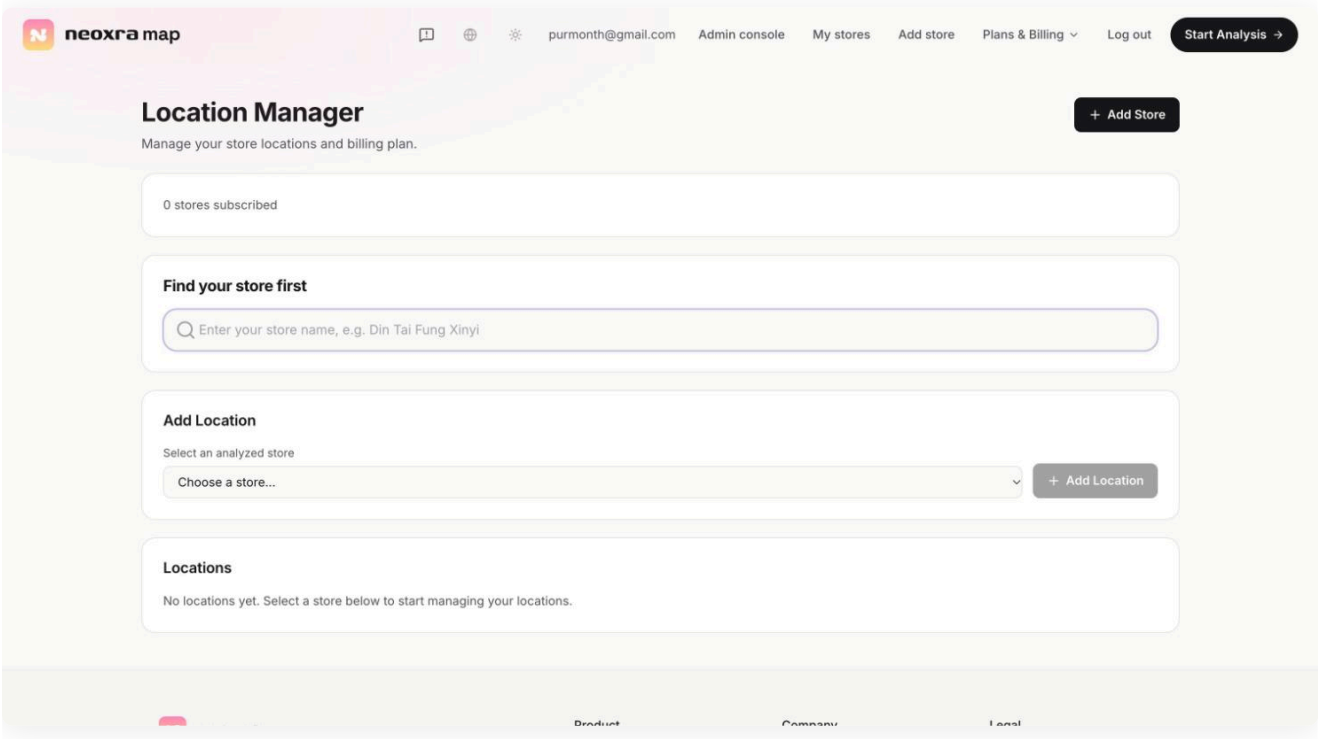

Fig. 10 Location Manager: all stores and subscription statuses at a glance.

05 What to do about malicious reviews

This is the one thing every business cares about most. The bottom line first: **Google reviews cannot be deleted** — even clearly false reviews usually don't come down after you flag them. Neoxra can't fix that. No PR firm can. But that doesn't mean you're stuck. **Two methods will minimize the damage**, and Neoxra Map can do both.

> **Why can't they be deleted?** Google's policy: as long as the reviewer is real and the content doesn't violate community guidelines (hate speech, revealing personal info, promoting competitors), Google keeps it — even if the content is unfair or inaccurate. Deleting reviews would hurt Google's own trust. They'd rather leave false reviews up than become a platform where "pay to delete negative reviews" works.

A Dilute: push bad reviews down in search results

When someone searches "business reviews" on Google, Google ranks reviews by **Review Quality × Keyword Relevance × Recent Activity** — not by date.

- If no new reviews come after a bad review, that bad review stays pinned at the top of search results.
- If you consistently generate **content-rich, keyword-dense 5-star reviews** every month, Google promotes those and pushes the bad one down.
- Reminder: **1 long content-rich 5-star beats 100 blank 5-stars**. The more words, the more specific service and experience details, the more credible Google considers the review — and the higher it ranks.

The Neoxra Map QR is designed exactly for this — every homeowner can produce a content-rich review in 10 seconds. Over time, bad reviews get diluted naturally.

B Reply: turn bad reviews into a plus with a professional response

Google Maps' algorithm rewards **Owner Reply Rate** — reviews with replies rank higher than those without. More importantly, **homeowners read replies**. A calm, professional, empathetic reply often shapes the next homeowner's impression more than the bad review itself. Neoxra Map drafts **reply drafts** for every review (including bad ones). Copy and paste into your Google Business Profile. Drafts:

- Lead with acknowledging the homeowner's feelings — no defensiveness
- Briefly explain what the business actually does or a possible misunderstanding (without revealing homeowner details)
- Invite the homeowner to contact the business directly
- Avoid counterattacks, avoid revealing records, avoid "we were right" tone

The effect: the next homeowner who sees that bad review also sees your professional, accountable response — the overall impression shifts positive. And Google counts your reply text as part of the review when ranking search results.

> **Do both at the same time**. A alone (dilute) leaves the bad review in place but reduces its impact. B alone (reply) turns one bad review into a plus but doesn't move overall rankings. Together, malicious reviews shift from "keeps you up at night" to "noise the algorithm can ignore."

When to flag a review

The following cases can be flagged to Google (success rate is low but worth trying):

- Review contains **profanity, hate speech, or personal attacks** (violates community guidelines)
- Review **reveals homeowner personal info or records** (violates privacy policy)
- Reviewer **never actually visited** (but you need evidence — e.g., Google account was just created, posted 5 negative reviews of competitors the same day)
- Review **promotes a competitor** ("Don't go here, XX is better")
- Review content is **completely unrelated to your business**

In other cases, even unfair or inaccurate content usually won't be removed. That's when A + B are the only real tools you have.

06 Homeowners: 10-second review

Homeowners don't need to download an app or sign up. A few taps and they leave a content-rich review.

1. **Scan the QR**: Homeowner points their camera at the QR at your front desk.
2. **System auto-drafts a review**: Based on your business's services and what recent homeowners mention, a 50–150 character draft is generated.
3. **Highlight topics**: "Anything to highlight?" chips below — tap services, service, environment, etc. The draft adjusts.
4. **Copy & go to Google**: Click the button and jump straight to Google's review window. Homeowner picks their own star rating and submits.

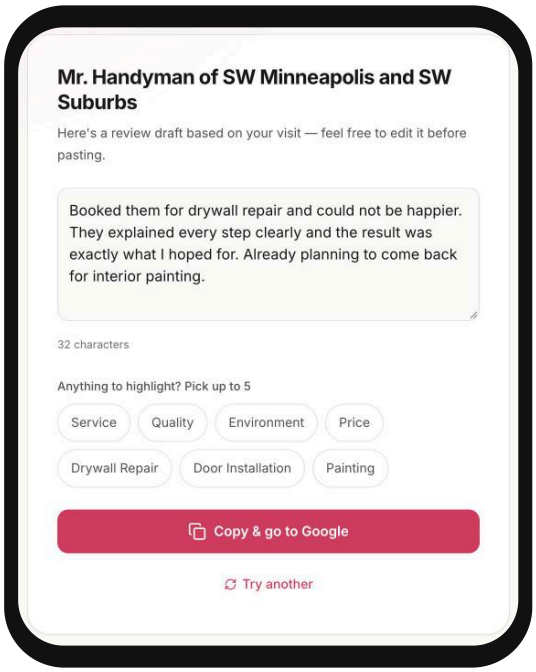

Fig. 11 Mr. Handyman of SW Minneapolis review page, shown after the homeowner rewrote the draft in their own words (the draft box is fully editable).

> The star rating and final content are **entirely the homeowner's decision**. Neoxra does not filter good vs. bad, does not post on their behalf. **Stores that haven't activated or have paused**: scanning the QR goes straight to the Google Maps page — the homeowner can still leave a review, just without the "draft it for you" shortcut. Printed QR cards don't need reprinting; the shortcut resumes automatically after re-activation.

How to invite reviews when the job is done and invoiced (compliant version)

Google forbids businesss from exchanging reviews for discounts or gifts, or only asking satisfied homeowners. Here's what you can do:

- When the job is done and invoiced, say: "If everything went well, we'd love a Google review — scan the QR, it takes 10 seconds."
- Place the QR on **invoices, work orders, technician business cards, a sticker on the service van** — every homeowner sees it, not just the happy ones.
- No discounts, gifts, or free add-ons in exchange for reviews, and don't ask only happy customers.
- Don't text "please give us 5 stars" — that counts as steering, and Google may treat it as solicited reviews.

07 What you must know

Review rules: four things you CANNOT do

If Google catches violations, it will remove reviews — or penalize your business profile (search ranking drops, reviews disappear).

Cannot do	Can do this instead
Trade discounts, gifts, or free add-ons for reviews	When the job is done and invoiced, say "If everything went well, we'd love a Google review"
Only ask happy homeowners for reviews	Place the QR on **invoices, work orders, technician business cards, a sticker on the service van** so every homeowner sees it
Write content for homeowners, post on their behalf, or have every homeowner copy the same template	Let each homeowner tap their real experience to generate a draft, edit it, and post it themselves
Reward technicians by review count	Technician QR is only to see which distribution method works best

Pricing at a glance

Plan	Price	What you get
Free	US$0	3 analyses/month; see score and issue list, improvement suggestions locked
One business	US$29/month, billed monthly	Full report, Rank Radar, unlimited posts, review reply drafts, QR card + staff QR, monthly performance
Multiple businesss / locations	US$29/month each	Same account, billed on the same day

Payments are handled by Stripe. Neoxra never sees your card number.

FAQ

- **If a business pauses the subscription, do printed QR cards stop working?** No. After pausing, homeowners scanning the same QR go straight to the business's Google Maps page and can still leave reviews — they just lose the "draft it for you" shortcut. No need to reprint. The shortcut resumes automatically after re-activation.
- **I can't find the "This is my store" button?** Sign in first, then open your business's report. The button is at the top of the report.
- **Is there still an "activation review" step?** No. After the 10/24 UI update, the owner clicks "This is my store" and goes straight to payment — no human review.
- **Scanning the QR only opens Google Maps?** That business hasn't paid for subscription yet. After activation, the review page appears.
- **We work on-site with no storefront. Where does the QR go?** On invoices, work orders, and business cards — hand it over when the job is closed out.
- **Most jobs are small. Is it worth asking every time?** Yes. Steady volume is your advantage: a stream of detailed reviews every month is what pushes bad ones down.
